

ALARM.COM

Wi-Fi Doorbell Camera

Visit alarm.com/doorbell for installation instructions.

Push Notifications

Use the Alarm.com app to set up instant alerts:

Button Pushed

Be notified when the doorbell button is pushed.

Motion

Be notified when the Doorbell Camera detects motion.

Tap on a doorbell notification to open the call screen so you can see and speak with your visitors.

QUICK TIP

To respond to doorbell notifications even faster, check "Keep me logged in" on the Alarm.com app login screen.

Video Recording Rules

Use the Alarm.com app to choose which events trigger your Doorbell Camera video clip recordings:

Button Pushed

Record when the doorbell button is pushed.

Motion

Record when the Doorbell Camera detects motion.

Event Triggered

Record when a sensor in your Alarm.com system is activated or an alarm is triggered.

QUICK TIP

You can view recorded clips on the Alarm.com app and Customer Website.

LED REFERENCE GUIDE

© 2017 Alarm.com. All rights reserved.
