

# Video Analytics Doorbell

See more, know more and do more with the new VDB770 Video Analytics Doorbell.

The latest in our best-in-class Design Studio Series product line, this sleek Video Analytics Doorbell makes it easy for customers to get instant front door awareness no matter where they are.

## Powerful New Features

An expanded vertical view lets customers check on doorstep deliveries—right from their Alarm.com app. The HD resolution camera and improved Two-Way Audio make it easier than ever for customers to see and speak with visitors.

### HELPFUL ALERTS

VDB770 uses Video Analytics for rapid people detection and fewer false alerts. Customers can know when someone is at the door, even if they don't ring the bell.

### REAL-TIME CONVERSATIONS

It's easy for customers to have two-way conversations with visitors at any time of day or night with improved Two-Way Audio, HD resolution, HDR and infrared night vision.

### INSTANT AWARENESS

Customers can check the live view video feed from the app or record clips automatically when the doorbell is pressed or motion is detected.

### MOBILE-OPTIMIZED EXPERIENCE

Customers can view visitors in full screen portrait mode and speak with them wherever they are—whether they're on the go or on the couch.

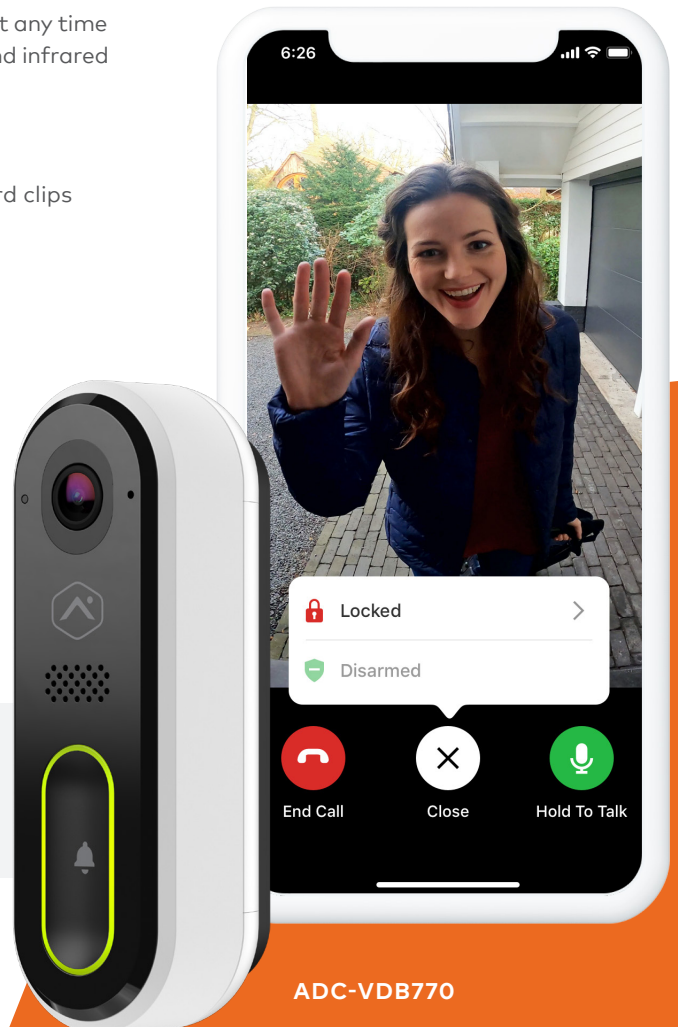

### ADDED CONVENIENCE AND SECURITY

In addition to disarming their system and unlocking or locking doors, customers can also adjust lights, open and close garage doors and arm their system directly from the doorbell call screen.

### TOUCHLESS DOORBELL FEATURE

Visitors are able to ring the bell just by standing in front of the door—no contact required.

Visit the Alarm.com Partner Portal to purchase the new VDB770 and access marketing, installation and support resources.
